Notes:

Students may choose to take the Standard Level (SL) assessment even if the course in which they are enrolled prepares them for the Higher Level (HL) assessment.

Higher Level courses are always over 2 years. For courses identified as HL 1 and HL 2, all students are prepared for the HL assessment.

Some Standard Level courses are completed over 2 years. These courses are identified as SL 1 and SL 2.

Some Standard Level courses are designed to be completed in year. These courses are indicated by SL (no number).

Higher Level assessments can only be completed in the second year of the IB Diploma. A maximum of 2 Standard Level assessments may be completed in the first year of the IB Diploma.

Courses with AP and IB in the title prepare students for both assessments. AP exams are designed optional when the IB content and objectives meet most of the needs for the AP exam, but the class does not directly prepare students for the AP exam,
