**During the 11th and 12th grade years, students may elect to take a computer science course by dropping an approved course as follows. 11th graders may drop Mathematics or Physical Education and 12th graders may drop Science, Fine Arts, or French.

Computer science courses offered vary year by year and may include AP Computer Science, Python, AP Computer Science Principles, and Special Topics in Computer Science.

Completion of at least 6 years in each core subject is required (except for computer science).
