Welcome to Online Course Registration

The SDS High School course catalog is available here: http://www.sdsu.edu/departments/curriculum/.

- The courses in these guides will be offered next year only if enough students at each school register this spring to fill a class. So it is important that you think carefully about your choices now, including alternative selections, so that the courses you want will be available next year at each school. Another reason for students and parents to take spring registration very seriously is that students will be committed to their schedule. Changing student schedules will be done only under exceptional circumstances.
- Please be aware that your post-high school plans for college, employment, or career training may require courses beyond the graduation requirements. Also, if you want to finish up your high school program with some Advanced Placement or advanced-level vocational courses, you need to register for the necessary prerequisite classes during 9th, 10th, and 11th grade.

Please pick 7 credits worth of course requests. Also, please pick at least one credit worth of alternate course requests and up to 3 credits worth of alternates.

If you need assistance, please contact us by email (by clicking on their name in the top right corner of this page. This will allow you to email them your questions).
