Decision Making Process

- Each committee member has one vote that must be exercised.
- No abstentions will be allowed.
- A clear recommendation will be indicated by a super majority of >60%, 15 of 25, in favor of one of the materials.

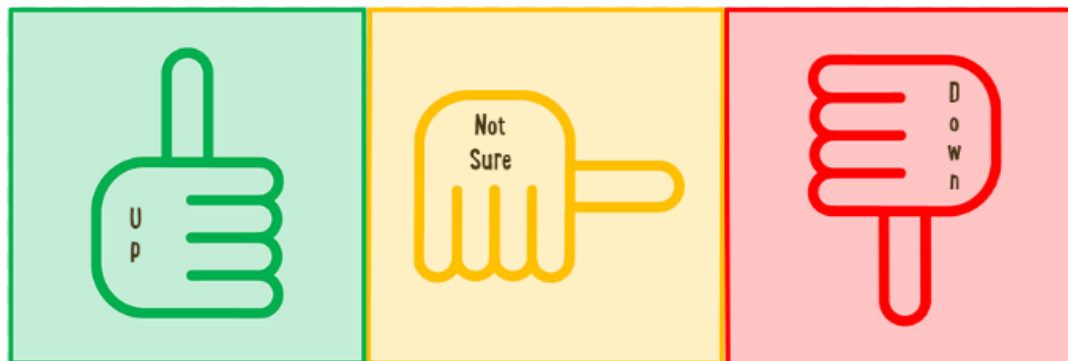

Are we ready?

All committee members must be comfortable with taking a vote before the voting is implemented.

This comfort level will be identified by a *thumbs* consensus vote with all members.

Once all members show thumbs up, the committee members will vote.

Next Steps

We will meet again in January 17 to review survey data and make a final decision on resources.
