Nutrition News:

WA-Grown Harvest of the Month – Featuring Berries on the Salad Bar!

Fresh berries are a well-anticipated sign of summer. In Washington State, fresh berries are usually available June through August. Berries are a good source of Vitamin C, and rich in phytochemicals, or antioxidants that promote immunity among other health-promoting functions in the body.

- ✂ Blueberries are native to North America, and the United States is the world's largest producer of blueberries.
- ✂ Did you know that strawberries are the only fruit with seeds on the outside? The average strawberry has 200 seeds. Western Washington has a long history as a strawberry growing region, historically for the processing market.

The **My School Menus™** mobile app allows you to access menus and nutrition information directly from their smart phones and tablets.

The digital menus allow you to:

- Translate the menu into over 75 languages.
- View nutritional information and ingredients for menu items.
- Filter food choices for the top 8 allergens.
- Determine the overall nutritional value of a meal (calories, carbohydrates, etc.), using “Build a Meal” feature, to meet personal dietary needs.

How to Pay for Meals: Nutrition Services uses **PayPAMS** for online payments. Go to: <https://paypams.com> for more information

There is a \$1.95 fee for each online transaction. You may also pay for meals by check or cash at your child's school.
