BSD MISSION: TO PROVIDE ALL STUDENTS WITH AN EXEMPLARY COLLEGE PREPARATORY EDUCATION SO THEY CAN SUCCEED IN COLLEGE, CAREER, AND LIFE.

OUR OBJECTIVE

Collaboratively discuss the novels *One Crazy Summer* and *Brown Girl Dreaming* to ensure texts are of value, appropriate for 7th grade and fit the needs of the 7th grade year. Today's work will be brought back to your teams for further discussion with the goal of voting at the next meeting whether one or both texts will move forward in the pilot process.

REMINDERS

*Don't
Forget!*

- We are making a recommendation for adoption of instructional material that will be the base for our curriculum. The texts are not the curriculum.
- All decisions are made based on sound research, the best interests of our students, and align with our district mission and criteria.
- We are choosing texts that will be required for all students in the course.
- Please keep an open mind throughout the process.

Also worth considering resources for kids at home (e-reader for SpEd, etc.).

NORMS

- Presume positive intent
- Speak with consideration and respect for others and their efforts
- Acknowledge and appreciate others perspectives
- Monitor your personal air time.
- Keep an open mind
- Listen and participate

EQUITY OF VOICE

Monitor your air time

Use name card to indicate interest in speaking

Monitor each other- Who haven't we heard from?

DESCRIPTION OF THE PROCESS

Selection process to develop criteria for materials review

Pilot follows selection of at least two materials to collect data while using the materials with students.

Adoption recommendation to the Instructional Materials Committee (IMC)

Implementation following School Board approval to begin district-wide use.

BSD MISSION: TO PROVIDE ALL STUDENTS WITH AN EXEMPLARY COLLEGE PREPARATORY EDUCATION SO THEY CAN SUCCEED IN COLLEGE, CAREER, AND LIFE.

Need to pilot to different demographic areas. Ideally, we have as many people piloting as possible, and all texts are piloted in all buildings. Can't really have students read them all to test them out (unlike how math texts can be compared). How can we get comparative data? Asking one teacher to pilot multiple texts for different periods is probably far too much work.

Type of data: teacher, student, and parent surveys, assessment data (although assessment data may not work here)

DECISION MAKING PROCESS

The culminating activity of the 7th Grade Book Selection Committee will be to reach a decision regarding which 7th grade instructional materials to recommend to the Instructional Materials Committee for adoption. The IMC will recommend final approval to the Bellevue School Board. Each committee member has one vote that must be exercised. No abstentions will be allowed. A clear recommendation will be indicated by 6 out of 10 people in favor of the materials.

Approval process completed text by text, not all at once.

CONSENSUS

Consensus for Establishing the Decision-Making Process

- Thumbs Up: I think it's a good decision and will advocate for it.
- Thumbs Sideways: I am comfortable with the proposal, but would like to discuss some minor issues.
- Thumbs Down: I still need to discuss certain issues and suggest changes that should be made.

We'll use this process multiple times.

DECISION-MAKING PROCESS

All committee members must be comfortable with taking a vote before voting is implemented. This comfort level will be identified by a thumbs consensus vote including all members based on the question: “Do you feel that you have enough information about the two instructional materials to make an informed recommendation to the Instructional Materials Committee?” Once all members show thumbs up, the committee members will vote to select the final text(s).

BSD MISSION: TO PROVIDE ALL STUDENTS WITH AN EXEMPLARY COLLEGE PREPARATORY EDUCATION SO THEY CAN SUCCEED IN COLLEGE, CAREER, AND LIFE.

This hasn't ever actually happened. Usually, a clear choice comes out.

REVIEW FOR BIAS

As we work to increase success for all students, it is important to recognize the impact of bias in classrooms, instructional materials and teaching strategies. Bias in general may be identified by determining whose interest is being portrayed and whose interest is being excluded. Evaluating for bias requires us to learn about others and to respect and appreciate the differences and similarities. Examine the questions below for each of the novels. Please take notes in the space provided as you examine each text.

NEXT STEPS

Take the discussion from today back to your building/community

Please discuss with your team:

- After hearing about our discussion from today which books would your team like to move forward to the piloting process?
- What questions does your team have about either of the books?

Book Discussion: One Crazy Summer

Describe how this instructional material is relevant and meaningful for the overall curriculum objectives of the course:

Storytelling to teach about culture & perspectives

The book functions as a window into someone else's perspective and a mirror into one's own perspective.

Literary devices

Interesting themes are developed

Powerful female characters with their own agency

Poetry

Could be paired with nonfiction texts (ex. Civil Rights-era readings, excerpts from autobiography of Malcom X)

The book helps expand perspectives, a part of the Bellevue School District commitment to equity

Is the content appropriate to the developmental age of the students in this course?

Protagonist is 11 (around age range of our students). Book is recommended for ages 9-12.

Many of our students have been in similar situations (raising or being raised by siblings). Valuable for students not in this situation to realize that many of their peers may be living this way.

Some of the topics and themes within the novel are similar and would continue to build on this work in the 7th grade curriculum

All committee members recommended this book move forward for consideration in the pilot.
