

EAG Notes Nov 21

Here: Kimberly, Paul, Suzie, Haruka, Alma, Myra, Terry, Betty, Mohammed

Also: John H and Pat H

Community Forums: We discussed the purpose of engaging the community in the work of EAG 2.0.

1) Pat and John will work with the BSD Webmaster to update the EAG webpage and keep it fresh.

2) Myra, Paul, Terry, Ivan and Pat will figure out the student forums for December and January

- Sammamish and BHS in December
- All others in January

3) An updated summary of the Community Forums document will be posted in MS Teams.

Clusters Meet

1) Cluster groups met to discuss their findings and questions about the three areas of focus:

- E & I: Terry, Kimberly and Mohammed (Maria absent)
- B & C: Suzie, Alma, Haruka (Maina and Pia absent)
- A, D, F: Myra, Paul, Betty

2) John pointed out that the nature of recommendations can include: (see the document entitled “District Commitment and Policy Connections” uploaded on MS Teams)

- The policies in Green are the ones recommended by the EAG 1.0 process to be updated by the board. These are high priority and groups can suggest language for these policies, especially as they coincide with the board’s review of them.
- The policies in Green may or may not have procedures created. Existing procedures should be reviewed and new procedures can be written. Procedures for these policies are a priority.
- Other suggestions, such as outreach or communication, as they relate to Green policies or procedures.
- These constitute a very large scope of work, especially for commitments that have a number of policies attached (especially B, C and I)
- John is available to consult with as groups decide where to focus their efforts

3) MS Team Brief Tutorial – thanks Suzie! Play around on MS Teams and create a page for your cluster group work under EAG Notebook.
