

## Verify LockDown Browser for AP Classroom is Installed

AP Classroom assessments require a newer version of the Respondus Lockdown Browser than is on the 2020-2021 student image. Before taking AP Classroom assessments, students should install “Lockdown Browser for Synergy and AP” (version 2.06.009) from [Software Center](#). This browser will work for both Synergy assessment links and AP Classroom assessment links. Students can verify they have the needed browser for AP Classroom through a verification link on the AP Classroom site.

<p>Install <b>Lockdown Browser for Synergy and AP</b> from <a href="#">Software Center</a></p>	 <p>LockDown Browser for Synergy and AP Respondus 2.06.009 for Synergy...</p>
<p>Go to <a href="https://apclassroom.collegeboard.org/lockdown">https://apclassroom.collegeboard.org/lockdown</a> and click <b>Verify LockDown Browser Installation</b>.</p>	 <p>Lockdown Browser Downloads</p> <p>Windows Edition <a href="#">↓</a></p> <p>Mac OS X Edition <a href="#">↓</a></p> <p>iPad Edition <a href="#">↓</a></p> <p>LockDown Browser Confirmation</p> <p><a href="#">Verify LockDown Browser Installation</a> &gt;</p>
<p>If no version of the LockDown Browser is installed, nothing will happen when you click the link.</p> <p>If an older or the needed version of LockDown Browser is installed, there will be a prompt asking to open the browser. Click the <b>Open LockDown Browser OEM</b> button. It can take a bit of time for the browser window to open so be patient.</p>	 <p>Open LockDown Browser OEM?</p> <p>https://apclassroom.collegeboard.org wants to open this application.</p> <p><a href="#">Open LockDown Browser OEM</a> <a href="#">Cancel</a></p>
<p>After the browser page finishes loading, if an older version of the LockDown Browser is installed, the browser page will be blank. <b>This means you need to install the latest version from <a href="#">Software Center</a>.</b></p>	 <p>Blank</p>
<p>After the browser page finishes loading, if the needed version of the LockDown Browser is installed, there will be a message on the page indicating success and an <b>Exit</b> button. <b>You have what is needed to take AP Classroom assessments.</b></p>	 <p>LockDown Browser has been installed successfully!</p> <p>Please click <b>Exit</b> to close the browser.</p> <p><a href="#">Exit</a></p>
